There have been rumors for the past few days that an assignment was probable, and this is thought to have caused the bank to take the step taken today. The legal representatives of the bank chartered the steamer Barker and worked the entire night between Bayfield and Washburn clinching their claim. There is considerable excitement at Washburn as over 300 men are thrown out of employment. The liabilities will reach \$450,000. Worth, Texas, the trunk had not arrived and she left the station and has not since been seen. The Mabbitts and their neighbors deny that any woman answering her description had been seen by anyone in their vicinity within the last three days, and a search of the town failed to reveal any clue. The trunk arrived a few hours after her disappearance. It is heavily roped and securely locked, and there are scores of people who would pay almost any sum if they could lift the lid and ascertain the contents. These have progressed far enough to demonstrate that the foreign road is willing, provided it is allowed on account of its circuitous route to charge ten per cent less on through freight than the American roads. There is strong probability that if better terms cannot be made that these will be accepted. This would result in a general advancement in freight rates to and from Pacific coast points.
